
NOVA GUARDIAN Weapon Set

3D Model Versions (BLEND, DAE, FBX, OBJ)

Copyright (c) 2017, Winterbrose Arts and Graphics. All Rights Reserved.

END USER LICENSE AGREEMENT (EULA)

* This package of model, texture, image and associated files, herein referred to as the “**product**”, is provided as-is with no warranties either expressed or implied. The publisher retains all copyright ownership and reserves all rights to this product. This **product** consists of copyrighted material licensed to the original purchaser for use by a single end-user in both commercial and personal projects. You are not purchasing the copyright for this product; you are just purchasing a license to use this product. Users cannot claim ownership or copyright to any item included in this product. This product is only available directly from the publisher or an authorized reseller. If you obtained a copy from any other source, please visit the publisher's website to purchase a legal copy for yourself. If you do not agree with any of the terms of this license, then do not purchase and do not use this product in whole or in part. Use of any portion of this product constitutes your full agreement with all of the terms contained herein.

* This license permits the individual person who purchased this license, herein referred to as “**user**”, to use the product on as many devices as desired so long as only one instance of the product is in use at any given time. The number of times the **product** is incorporated into projects is unlimited and there is no income/salary cap. If the purchaser is a recognized group (an organization, firm, company, or business), only one individual may be designated as the **user** per license purchased, and once completed the license is non-transferrable. If the **product** is being used on behalf of a client, then both parties must purchase a copy of this **product** with license.

* This **product** is not a Merchant Resource and is not licensed to create derivative works. The **product** can be used in 2D/3D game development or any commercial rendering/animation project. The **user** is authorized to modify and/or remap the objects in this set as required for their own projects with the understanding that modified and remapped mesh models are derivative works. Derivatives must remain solely for the creator's own use and must not be shared with anyone else by any means or for any reason. Derivatives are not authorized for distribution in any form, and must not be shared, sold, or given away. However, derivatives may be included and used in compiled game software (ie Unity or Unreal) for end-users as long as the derivative cannot be easily extracted.
