END USER LICENSE AGREEMENT (EULA)

X-BLADE is defined as a packaged collection consisting of this X-Blade User Manual, 3D Model Components, Texture Templates and Texture Guides.

USER is defined as anyone having obtained or possessing a complete copy or any portion of X-BLADE.

X-BLADE ***is not*** a Merchant Resource.

Users ***may*** use X-BLADE to create Renders and Animations for both commercial and personal projects. Credits* are not required but would be greatly appreciated where practical.

Users ***may not*** copy, share, sell or distribute copies of the X-BLADE Package, in whole or in part, by any means. Users ***may not*** claim any portion of X-BLADE as their own work. Users ***may not*** use X-BLADE to create derivative works to sell, publish, copy, share or distribute for any purpose whatsoever.

* Credits help generate additional support for works by the artist(s) within the 3D community.

Introduction

X-Blade Weapon Construction Kit provides a wide assortment of parts that enable the user to build unique swords and weapons for use in projects. X-Blade is not a merchant resource, however weapons developed with X-Blade can be used in commercial/personal renders and animations. There are over one-hundred thousand possible combinations using the components (blades, crossguards, grips and pommels) for assembling swords and other weapons. When you factor in the X-tras and your imagination, an endless variety of weapon styles can be created.

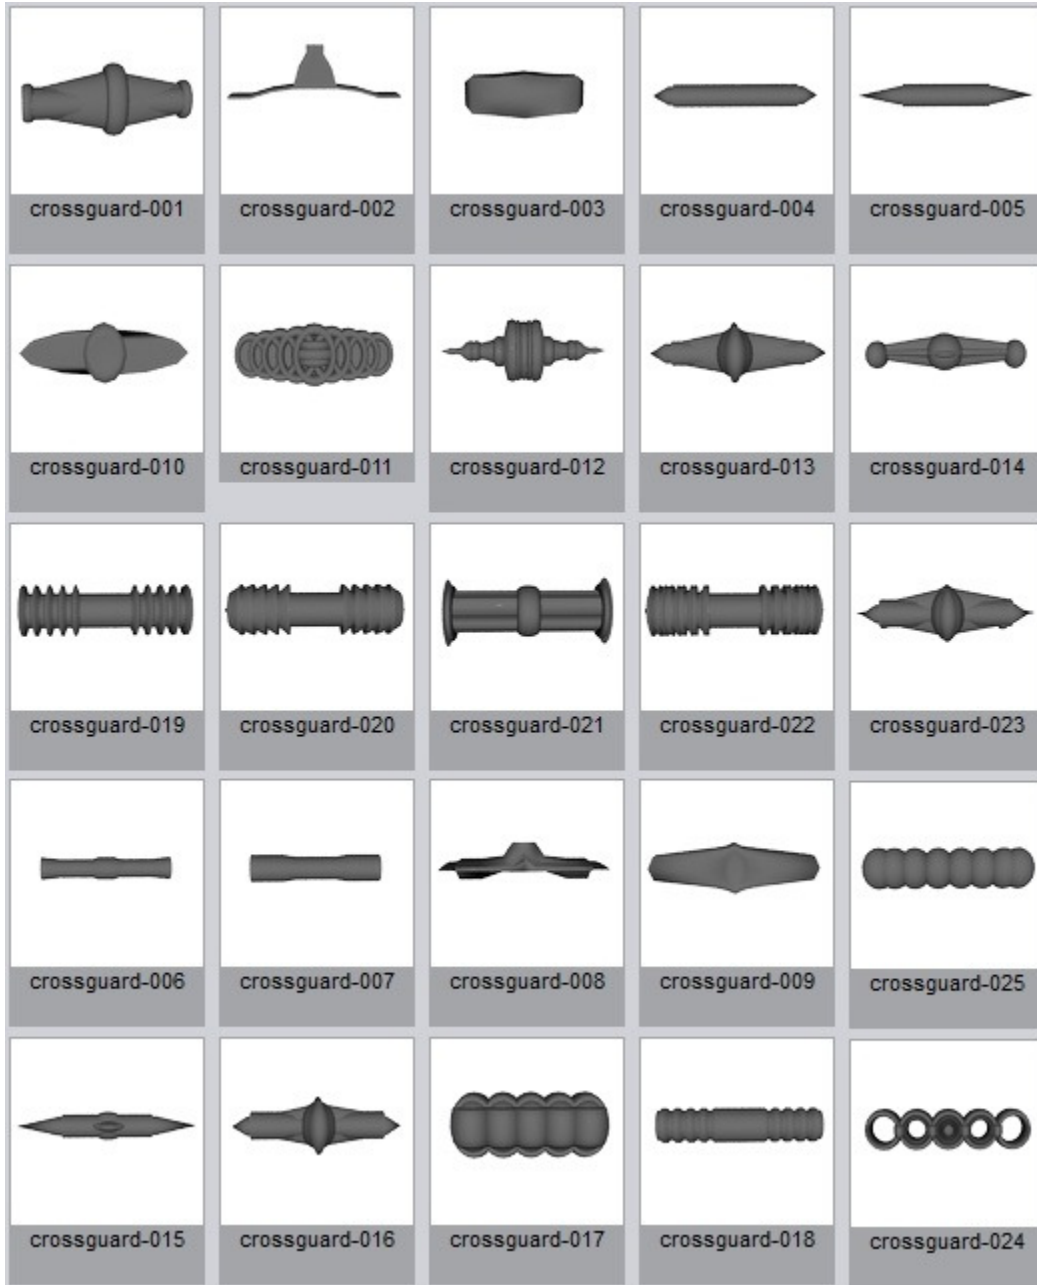

The above weapon designs were created using X-Blade Weapon Construction Kit.
